Diksha Ganesh Sonawane

Pune, Maharashtra, India · dikshasonawane121310@gmail.com · 9561287543 · in/dikshasonawane

SUMMARY

Computer Engineering Student with web development experience. Built a social-impact portal using Django and SQL during internship. Skilled in Python, C++, SQL, and front-end tools. Eager to solve real world problems.

EXPERIENCE

Software Development Intern

CoreTech Computer Institute   **March 2023 – July 2023, Baramati , Pune**

· Build a mini dynamic website using HTML, CSS, JavaScript, and PHP, Completing the full project lifecycle within 6 weeks.
· Designed responsive UI components that improved overall user flow and accessibility by 30% (based on internal testing feedback).
· Collaborated in a 3-member team to implement backend logic using PHP and MySQL, handling form submissions and data storage.
· Participated in weekly sprint reviews and presented deliverables to mentors, enhancing team communication and technical confidence.

PROJECT

The Third Gender – Fight for Equality

August 2023 - March 2024

· Developed a socially impactful web portal to support the transgender community, offering job listings, wellness events, and resource sharing for 100+ potential users.
· Implemented a secure, multi-role system (Admin, Transgender, Employer, Volunteer) with user registration, job postings, volunteer modules, and dynamic event tracking.
· Designed and managed a relational SQL database with CRUD operations across 5+ modules, ensuring role-based access, data accuracy, and scalability.

EDUCATION

Bachelor of Computer Engineering

JSPM's Jaywantrao Sawant College Of Engineering · Pune · 2027 · 7.77

Diploma in Computer Engineering

Shivnagar Vidya Prasarak Mandal's College of Engineering, Malegaon (BK) · Baramati, Pune · 2024 · 86%

CERTIFICATIONS

Android Development Training

VJTech Training Institute · 2024

· Gained foundational skills in Android application development including UI design, layouts, and activity lifecycle.
· Demonstrated the ability to build basic Android apps, enhancing practical mobile development skills.
· Relevant for roles involving mobile app development, software engineering, and UI/UX projects.

PHP Development Training

VJTech Training Institute · 2024

· Learned server-side scripting using PHP for web development.
· Built dynamic web pages and understood backend logic in full-stack applications.
· Relevant for backend roles, full-stack development, and projects using web technologies like HTML, CSS, and MySQL.

SKILLS

· Languages: Python, C, C++, Java, JavaScript
· Web Technologies: HTML, CSS
· Databases: MySQL, MongoDB
· Tools & Platforms: Git, GitHub, VS Code, JIRA
· AI/ML: Python libraries – NumPy, Pandas
· Soft Skills: Problem-solving, teamwork, adaptability, communication
